Over Me

Lisa Marie Presley

I've seen her face
.so good, it ain't nothing, babe!
I say she's cool and. back to Liberty...
I've seen the way you and she...
How she plays ... better than a...
Chorus:
Can it be you're over me?
She took my place, she saved the day
Others see you're over me
When she took my place, she saved the day!
I've seen that she laid
And did whatever you need
And how when she can bake that cake
I wouldn't bake
What a breath of fresh air
She is in my way
Chorus:
Can it be you're over me?
She took my place, she saved the day
Others see you're over me
When she took my place, she saved the day!
...be with my friends
Who to say I'm not...
You know there's very bad one
That was never your friend...
Chorus:
Can it be you're over me?
She took my place, she saved the day
Others see you're over me
When she took my place, she saved the day!
