

Avalon

Juliet

We'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you betterWe'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you betterWe might ever have problems in life
This party has the best view but no lie
Headstrong my precious alibi
I refuse to complicate you more than is rightYou are no reason to give, you are no reason to try
Catch up to find out, I've never seen this life
Caught up, I was caught up in the times
Catch up to find out I've never seen this lifeWhat's the difference if it's yours or if it's mine
There's no difference if it's your or if it's mine
What's the difference if it's yours or if it's mine
There's no difference if it's your or if it's mineWe'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you better
We'll take a holiday
You know I'd love you better
