Scream (The Damn Hot Remix)

Bim

My heart won't stop, it beats for free
And common sense won't prevail with me
Overwhelming, to live on and breathe inAnd I, I couldn't be all that I am
When I say I can't you just say you can
And without you I'd never be that strong
I was never enough for youAnd I'll scream
I've been holding in this feeling forever
You promised that you'd never again
Scream
I guessed we'd always be there forever
You knew we'd never be there again
Scream out, I scream outThis time all my love won't break
It will smash you'll see
It's common sense to be hated by me
Overcomplicated to live on and take itAnd I, I couldn't be all that I am
When I say I can't you just say you can
And without you I'd never be that strong
I was never enough for youAnd I'll scream
I've been holding in this feeling forever
You promised that you'd never again
Scream
I guessed we'd always be there forever
You knew we'd never be there again
Scream out, I scream outAnd I was proud to stand and love one another
Oh how it's changed
We swore we'd always stay the same
Oh how you've changed
