

# Keep the Faith

## Jenny Phillips

The storm is rolling in  
And you're wondering where He is  
As the billows are tossing high  
You feel alone  
But He truly knows  
And even when you're in the dark  
He's there, right where you are

Hold on  
Even when your eyes can't see  
Your destiny  
He still believes  
Be strong  
He can see tomorrow's change  
He is the surest way  
Keep the faith

He sees the daily grind  
And He feels each tear you cry  
He understands your heart  
He never forgets  
A child that is His  
Nothing escapes His view  
He's there, He's pulling for you

Hold on  
Even when your eyes can't see  
Your destiny  
He still believes  
Be strong  
He can see tomorrow's change  
He is the surest way  
Keep the faith

He is the surest way  
Keep the faith
