Dead and Gone

Blake Babies

It was getting cold and I felt like I was drifting away
So I pulled the wool over my eyes, it was heavy and warm
And when you acted like this was how it's supposed to be
I really let it cover meBut soon as you're dead and gone I'll see
What wasn't always clear to me
I will be free to bury youI woke up early and I looked into the sunny expanse of sky
Then I took one look at you and I knew that it was time for something to die
I'm giving back the sugar that you offered up
It covers up the ache and the cavity, but it's not enoughSoon as you're dead and gone I'll see
What wasn't always clear to me
I will be free to bury you forever
