

Xerox 12

Rhino 39

A faceless girl came up to me
Remember what I used to be
Xerox personality, a sheep without identity

On Friday nights they'd go to parties
Everyone they know is there
They laugh and talk and get instructions
On how to act and what to wear
IF you try to break the norm
The followers they'll take you down (?)
Saying their shit and saying their crap
Always talk behind my back!

Go to college go to war
Get a job in daddy's store
Follow all the family trends,
Carbon copy of your friends

Your friends
Your friends
Your friends
