

# Populists

## Plastic Flowers

Let's try and not forget,  
All the things they did to us,  
Just the same since they start,  
Faster you inhale until you think it's yesterday They will haunt you down now,  
Your safety guaranteed,  
They crashed our life, how?  
No harm done  
Cause there's one thing that can hold you from the past Seek a way and prove me all wrong  
Among excuses you can find  
Just paralyze your days and go on  
Cause these decisions are made so strong  
Oh damn those populists
