Silent War

Naked Aggression

You're being used by the rich
You're being used by the richIn order for the ruling class to keep power
The lower class must be kept under control
They keep us uninformed and make it hard to survive
So we drown in apathy and don't question whyThe rich are screwing us over
The rich are screwing us overYou're being used by the rich
You're being used by the richTake a few minutes from your idle amusement
Learn for yourself how the rich abuse us
You're stuck in the middle of a silent war
Where the rich struggle to keep down the poorThe rich are screwing us over
The rich are screwing us overA millionaire will count his money
While a million starve to death
And the majority will stay poor
Ã´il we unite and have a class war!You're being used by the rich
You're being used by the richBeing greedy is a crime
Let's lock them up for being insane
Instead the dissenters are considered mad
For refusing to follow what the rich man saysThe rich are screwing us over
The rich are screwing us over
