

Bittersweet World

Ashlee Simpson

Tragic, everybody tryin' to hide all of those habits
It's kinda bizarre when it's who you are
It's tragic that it's come to this
I bury all of my vices tryin' to keep my head up over it
When everything's whatever It's the be all end all and right before we fade away
Call a spade a spade and you should know
You can tell, it's a Bittersweet world
Why can't we all just get along in this?
Bittersweet world
Everybody reapin' what they sow in this sweet world Whatever happened to the magic that was keepin' us
The faith that was beyond stardust
Now those hypocrites pointing fingers
With three fingers pointing right back And all we're left with is
And all we're left with is
And all we're left with is
The foolish pride and the quick fixes, yeah It's the be all end all and right before we fade away
Call a spade a spade and you should know
You can tell it's a Bittersweet world
Why can't we all just get along in this?
Bittersweet world
Everybody reapin' what they sow in this sweet world Bittersweet world
With closets full of skeletons
I'm a bittersweet girl
Demons out to get me as I stand alone There's a universal bottom line
Everybody's in disguise, even you and I
Behind the facade tryin' to get by
Don't wanna burn but wanna play with fire, again There's a universal bottom line
Everybody's in disguise, even you and I
Behind the facade tryin' to get by
You wanna play with fire, you're gonna get burned so It's the be all end all and right before we fade away
Call a spade a spade and you should know
You can tell It's the be all end all and right before we fade away
Call a spade a spade and you should know
You should know it's a Bittersweet world
Why can't we all just get along in this?
Bittersweet world
Everybody reapin' what they sow in this Bittersweet world
With closets full of skeletons
I'm a bittersweet girl

Demons out to get me as I stand alone
