## Hostage

## **Front Line Assembly**

Fuel is running, fuel is coming
Fuel is running
Down, down, down my faceThe line, the line
The line is drawn in the sand
It won't be long

We have to be strongBefore they drop

The final bomb

Before they drop

The final bombHuman target identified

Neurotic psychotic

Mutated spiesHuman target identified

Neurotic psychotic

Mutated spiesWe've got to make a stand

We've got to kill the man

Tonight is when we go

Tonight is when things blowFull throttle ahead

I think we're already dead

The night is here, I feel clear

I don't feel my headHuman target identified

Neurotic psychotic

Mutated spiesHuman target identified

Neurotic psychotic

Mutated spiesFuel, fuel, fuel

Fuel, fuel, fuel, fuelDown, down my faceDown, downHuman target identified

Neurotic psychotic

Mutated spiesHuman target identified

Neurotic psychotic

Mutated spiesSabotage the system

Sabotage the systemFuel is running down my face

Fuel is running down my face
