

# All Of A Sudden

## Telekinesis

You don't understand it  
All of a sudden something's wrong  
You take it for granted  
All of a sudden time is gone You put a little distance in between it  
Hope it makes sense later on You don't know what happened  
Dreams never turn out like you planned  
The next moment you wake up  
Stranded in a one night stand You put a little distance in between it  
Until you seen it hope that later on I know it's hard to wait that long  
But right now baby  
We both agree, something's wrong  
Something's wrong All of a sudden  
May be weak and try again  
But baby, baby, baby I don't know when  
Until then You put a little distance in between it  
Until we seen it  
Maybe later on I know it's hard it seems so long  
We both agree, oh baby  
I know, I know.
