Be Free

Mitch King

I've been searching every night and day
and I've been everywhere
but I still haven't found you
I've nothing to lose
and I'm looking forward to the calm that you bring
for now I'm gonna be
best in my own company
until I find you

da ra ra
I'm gonna be free
da ra ra
I'm gonna be free

and I don't know why
you don't see what I see
or feel what I feel
'cause we're just the same
so far apart
and I'm from the west
and you're from the east
that don't say we cant make peace
so be released from the work
where we can be heard

da ra ra
I'm gonna be free
da ra ra
I'm gonna be free

whatever happened to our history
and i say how we have evolved
why are we told what to do
generations after time look what we've done
are we under their control
have we forgotten the gift of life

we are gonna be free
da ra ra
we are gonna be free

da ra ra
we are gonna be free
and you know I do
and you know I see
and you know I believe
that we are gonna be free
