She Loved Me

Jason Aldean

It was the summer of ?89
I fell in love and I learned to drive
Me and Becky didn?t waste no time
Went zero to 65 one night
Being young was getting old, we were heading down a dead end road
But we didn?t care we were on a roll
Hanging on for the ride, those lines that we were crossing
Carelessly tossing caution to the wind were wearing thin
We were living for the minute, loving every second of it
Fearless, wild, and free
Nothing could stop us but one day time caught up with us
And woke us up in the middle of our dream but not before she loved me
She loved me
I think we thought that it would last, but looking back I had to laugh
What a mess we made of that, now I?m not sure that I would want it back
We learned a little bit about love, what it wasn?t and what it was

It was fast and it was fun, the beginning of the end of us
One day that road just ran out, but I still travel down it now and then
And once again
We?re living for the minute, loving every second of it
Fearless, wild, and free!
Nothing could stop us but one day time caught up with us
And woke us up in the middle of our dream, but not before she loved me
We were living for the minute, loving every second of it
Fearless
(Fearless)
Wild, and free!
Nothing could stop us but one day time caught up with us
And woke us up in the middle of our dream, but not before she loved me
She loved me
She loved me
