Endangered Species

Sepultura

Life
The struggle to survive
Crawling, raging
Feed the hate insideAre we going to see another day?
Are we going to make it all the way?
Are we going to see the light of day?
Are we going to make it till the end?Rise
Bad moon rise
Another war, another crime
End in sightBleak
Why & what the fuck?
Shut your mouth
Shut your mind, this the way
You're just another preyIs that what we've becameRise rise rise rise
Rise rise rise riseAre we going to see another day?
Are we going to make it all the way?
Are we going to see the light of day?
Are we going to make it till the end?Endangered species
Endangered species
Endangered species
Is that what we've became?
