Milky Way

Iguana Glue

You must have your wires crossed
I know you think alot
Because I think alot
When I'm not with youBut you'll never see her name next to mine
Written in the milky way like ours is
She couldn't be you if she tried
She couldn't be you if she triedIf I'd have wanted that
I'd have time to go after it
You know I think alot
Because you do tooBut you'll never see her name next to mine
If you were gonna then you would of by now
She couldn't be you if she tried
She couldn't be you if she tried
