

# Sing

Ben Lee

Hey you, back against the wall  
Wondering if the world'll fall apart  
Hey you, wondering what to think,  
Looking for an answer, to find it in you heart, You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere Sing, it's your favorite song  
When you're singing along nothing is wrong  
Everybody just sing for the people who can't  
It'll help them survive, we are free and alive  
Everybody just sing Hey girl, what's the matter now?  
Feeling like each day it's something else  
Hey you, wading in the shallow  
Looking for a reason, found it in yourself You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere Sing, it's your favorite song  
When you're singing along nothing is wrong  
Everybody just sing for the people who can't  
It'll help them survive, we are free and alive  
Everybody just sing I'm gonna sing la, la, la, la, la  
Come on sing with me la, la, la, la, la  
Come on guys la, la, la, la, la  
Sing with me la, la, la, la, la Keep it going now  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere You can find it anywhere  
You can find it anywhere  
You can find it anywhere  
You can find it anywhere Sing, it's your favorite song  
When you're singing along nothing is wrong  
Everybody just sing for the people who can't  
It'll help them survive, we are free and alive Everybody just sing, it's the secret revealed

If you wanna get real, if you wanna feel  
Everybody just sing for the people who can't  
It'll help them survive, it'll keep 'em alive  
Everybody just sing  
Come on and sing
