

Let My Niggas Live

Wu-Tang Clan

Someday I'm gonna be walkin down the streets
Mindin my own business and BAM
I'm gon' be shot by some pig who's gonna SWEAR
That it was a mistake
I accept that as a part of my destiny
Whattup kid? That's right
Yo aiyyo aiyyoAiyyo let my niggas live
We show and prove get paper, catch me in the caper on shrooms yo
Let my niggas live
We real niggas that's God-body, challenge anything, make major moves
Let my niggas live
We giants, live off the land lions, post with iron, no pryin rules
Let my niggas liveaiyyo let my niggas live
Handle your bid and kill no kidsMillionaire feat, whole family eatyo, y'all niggas is weak
Got a bird beak, chirp chirp speak
Kids that's rich that'll, run in your bitch and by the third week
Yo mark my word, me and my herb speak
That's that fire move like Schwinns yo
Invisible pens that write light, leave blends
Hit with the JF Kennedy shot
Smash with the Acapulco rifle got got
Bolt off, but got clocked
Legendary here, custom made it, shit bladed, word up
Design your alphabet, reps get graded
We in get-high saloons, big bag of shrooms, arm's length
Home of Allah's ten big rooms
So what we up in here, modelin large with rigorous moves
Exotic Gods bust my hammer at frauds
Call him a live merchant, dressed in all red, that's right y'all
Gucci jumper X-5, gettin more headAiyyo let my niggas live
We show and prove get paper, catch me in the caper on shrooms yo
Let my niggas live
We real niggas that's God-body, challenge anything, make major moves
Let my niggas live
We giants, live off the land lions, post with iron, no pryin rules
Let my niggas liveaiyyo let my niggas live
Handle your bid and kill no kidsI scream at the mirror, curse, askin God, "Why me?"
Run in the black church, gun in my hand, y'all try me
I'm God-son, son of man, son of Marcus Garvey

Rastafari irie, Ha-ile Selassie
 Police'll try to break us, but the streets raised us
 It takes more than metal bars, we destined for ours
 I hear murder plans from dopefiends, with elephant hands
 Snots in they nostril, the blocks is hostile
 There's no pots to piss in, glocks is spittin
 Rocks cookin underground bodies stiffin, cops look at bird shit
 Drop on the window pane, the oxygen is cocaine
 It drove lots of men to die with no name
 I been on boats, nut down throats, pee on bitches who famous
 Pretty dick, puttin stitches in they anus
 I'm the animal that Hugh Heffner created
 The only nigga Sade dated, the most hated, Nas niggaAiyyo let my niggas live
 We show and prove get paper, catch me in the caper on shrooms yo
 Let my niggas live
 We real niggas that's God-body, challenge anything, make major moves
 Let my niggas live
 We giants, live off the land lions, post with iron, no pryin rules
 Let my niggas liveaiyyo let my niggas live
 Handle your bid and kill no kidsRoughneck reppin the set, bang 'em twice in the neck
 C.O. flip and jerk the whole yard rec
 Block vets, pop barettas glocks and tecs
 You're no threat, gun talk, the language of the project
 Checkin shorty with the Black Tail stance, leapord pants
 Yellin fuck her man, makin killings off her lap dance
 Plus the young guns runnin the slums, funds is major
 Drugged out, got you huntin for crumbs stuck to the razor
 Semi-autos roar in the building hall
 Symptoms of bloodsport, the slugs are still in wall
 Call it a New York state of mind, gotta take mine
 In the daytime, the Jakes'll hit ya forty-one times
 So I live by the sword and obey hood laws
 Make my team click like high heels on wood floorsAiyyo let my niggas live
 We show and prove get paper, catch me in the caper on shrooms yo
 Let my niggas live
 We real niggas that's God-body, challenge anything, make major moves
 Let my niggas live
 We giants, live off the land lions, post with iron, no pryin rules
 Let my niggas liveaiyyo let my niggas live
 Handle your bid and kill no kids
