

# Long Wait (feat. Solomon Grey)

## Dusky

Step by step we walk alone,  
step by step we find out way home  
    too long my head's tired  
too long, you've found a place to hidereach inside and pull you out  
    take you down pay or tomb  
    play along it's about time  
    realise there's no way out  
        cut it out, cut it out  
    opened up and left to bleed out  
        cut it out leave it out  
    yourself and let me breathe out  
        cut it out just cut it out  
    bring back the silence of you  
        just say less again  
        just say less again  
    reach inside and pull you out  
    take you down pay or tomb  
    play along it's about time  
        cut it out cut it out  
    realise there's no way out  
        cut it out leave it out  
    yourself and let me breathe out  
        cut it out just cut it out  
    bring back the silence of you  
        just say less again  
        just say less again
