# White Witch

## Savatage

Heart beat is rapid your blood pumpin' faster
Hands reach for the blade
Touch her, feel her, your body it craves her
She leads you to your graveShe's an image all dressed all in white yo yo
Now you want to get her
Casting a spell her power on you
You'd leave but you don't know howWhite witch, white witch
Poisonin' you
White witch, white witch
Comin' for you
White witch, white witch
Taking your souls
White witch, white witch
Taking control, oohWrapped and enraging I use to maintain it
Do you want some more?
Give her your money, sell her your soul
The deadliest of whoresWicked white demon is starin' at you
Controllin' all that you say and you do
Sweating intensely the music's much louder
On the glass is a poison powderWhite witch, white witch
Poisonin' you
White witch, white witch
Comin' for you
White witch, white witch
Taking your souls
White witch, white witch
Taking controlOhh
Jump it up!White witch, white witch
Poisonin' you
White witch, white witch
Comin' to you
White witch, white witch
Taking your souls
White witch, white witch
Taking control, oohShe is now your only master
Your whole life's a complete disaster
Don't you dare let her in
As your final cureWhite witch, white witch
Poisonin' you

White witch, white witch
Comin' for you
White witch, white witch
Taking your souls
White witch, white witch
Taking controlAah aah aah
Yeah yeah
Taking my soul
Taking control
She's taking control
Ooh yeah ow
Alright, oh
Alright
