

California

Bag of Toys

I open my eyes to see her face

In a daze we engaged

Last night I slept about an hour

To fill her needs and desires

One more night in California

One more night with you

One more night

Ya she's alright

(She's alright)

One more night

(Yeah)

One more night in California

Dom dom dom, baby, one more night

Dom dom dom, baby, one more night

I need to catch a ride to the south side

I grabbed a patty and a shake

I felt the earthquake, I jumped in the cab for LAX

I flipped him a tip, hey man, then I split

One more night in California

One more night with you

One more night

But she's alright

She's alright

One more night

(Yeah)

One more night in California

Night in California

Night in California

Night in California

Dom dom dom, baby, one more night

Dom dom, baby, one more night

I opened my eyes to see her face

But she's alright

She's alright

One more night

(Yeah)

One night in California

She's alright

She's alright

One more night, yeah
One more night in California
Night in California
Night in California
Night in California
