Music Box Superhero

The Juliana Theory

You'd like to think I have it easy
At times I think your right but then
Take a look around and see your eyes on me
At times I think I have it easy
Until I close my eyes
And see this life in my box
Lets you turn the key
When you wanna hear a melody
And I can never be the apple of your eye
The story of your life is whats inside
I go through stages when I feel this matters
This song and dance is a way of life for me
(Resting for a while)
You like to think I have it easy
At times I think ive got it easy but then
I look around and see
The grass is always greener on the other side
On the other side
On the other side

This life in this box lets you turn the key
When you wanna hear a melody
But I can never be the apple of your eye
The story of your life is whats inside
And I can never be the one who saves your day
Well im just the man in the music box
Its nothing special
Its nothing special
Its nothing special
(I'm just the man in the music box)
Music box superhero
And I will never be
And I will never be (your superhero)
And I will never be (your superhero)
And I will never be (your superhero)
And I will never be (your superhero)
