I Am God

Virtue

I know what you've been missing
It's me 'cause you've been searching deeply
For love that won't hurt you
It is me you're looking for'Cause I am love, I will not fail
I am your God, I will prevail
I am love that will not scar
Give me your wounded heartI am God
It will do you well to praise me
I am God
There is nothing that can phase meI don't change
When your world gets dark and crazy
You will be still
And know that I am GodNo more doubting my words
Now that you've seen and you've heard
What my love can do for you
It is me you're looking for'Cause I am love, I will not fail
I am your God, I will prevail
I am love that will not scar
Give me your wounded heartI am God
It will do you well to praise me
I am God
There is nothing that can phase meI don't change
When your world gets dark and crazy
You will be still
And know that I am GodI am God
It will do you well to praise me
I am God
There is nothing that can phase meI don't change
When your world gets dark and crazy
You will be still
And know that I am GodI am love, I will not fail
I am your God, I will prevail
I am love that will not scar
Give me your wounded heartI am God
It will do you well to praise me
I am God
There is nothing that can phase meI don't change
When your world gets dark and crazy
You will be still

And know that I am GodI am God
It will do you well to praise me
I am God
There is nothing that can phase meI don't change
When your world gets dark and crazy
You will be still
And know that I am God
