Have It

Gilbert O'Sullivan

If you want my love
If you really do
If you want my love
If you really do
Have it have it
I want you toAnd if you want my soul
If it's really true
Have it have it
Please doNo need to swear
How much you care
If you just couldn't care less
I hate when saying what we mean
When what we mean is the opposite
Don't ask me why if it weren't for my
Lack of confidence I would grow
Your are not the first girl in my life
But the first to let my feelings showAnd if you want my love
If you really do
Have it have it
I want you to
Please doNo need to swear
How much you care
If you just couldn't care less
I hate when saying what we mean
When what we mean are opposites
Don't ask me why if I weren't so shy
I don't think I'd hesi - hesitate
Your are not the first girl in my life
But the first to make me feel this wayAnd if you want my love
If you really do
Have it have it have it have it
If you want my love
Baby have it
Please do
