

# Wait Until Dark

**Scott Walker**

Who cares how cold and grey  
The day may be  
Wait until dark  
And we'll be warm Our place of love  
Is where we face our dreams  
Together  
Where our fantasies take form When I can't feel your nearness  
In the night  
My disappointments disappear A cheerless day may bring us  
Little dreams  
That seem to miss their mark  
But oh my darling  
Wait until dark
