He Said She Said

Joe Purdy

Where are you going my one true love?
You understand me like no one does
So who's gonna save me now?
Yeah, who's gonna save me now?He said...
Going away love can't you see
I can't take you
and you can't change me
So I'm going to save you now
Yes, I'm going to save you nowShe said...
Well I got bruises on my feet he says
and I got cuts on my hands
So who's gonna help me stand?
Yeah, who's gonna help me stand?Well I got wounds that won't heal she says
Just as deep and just as long
So I'm going to make you strong
Yes, I'm going to make you strongWell I can't sleep at night he says
When those lights go out
Well who's gonna show me how?
Yeah, who's gonna hold me now?I have dreams of you she said
I see you hiding your face
So I'm going to make you brave
Yes, I'm going to make you braveI'm going to save you now
She says,
I'm going to save you now
Yes, I'm going to save you now
I'm going to save me nowSave me now
