Remember

Greeley Estates

Have we lost sight of where we are
Forgetting why it was we started this
We never meant to leave behind those days
So here we areHave we lost sight of where we are
Forgetting why it was we started this
We never meant to leave behind those days
So here we are and now we've come so farWhat do we have to show for it
Remember when we started this and what it meant to us
And now it seems the lines are blurred
Remember when we started this and what it meantSo focused on what lies ahead
Forgetting all it took to get us here
Can we recover everything we lost
So here we are and now we've come so farWhat do we have to show for it
Remember when we started this and what it meant to us
And now it seems the lines are blurred
Remember when we started this and what it meantAre we just trying to find some meaning
We lost sight of what matters most
Are we just trying to find some meaning
We lost sight of what matters mostYeah, where do we go
Where do we go from here
Where do we go from hereHave we lost sight of where we are
Forgetting why it was we started thisWhat do we have to show for it
Remember when we started this and what it meant to us
And now it seems the lines are blurred
Remember when we started this and what it meantAre we just trying to find some meaning
We lost sight of what matter most
Are we just trying to find some meaning
