Oceans

Mallory Knox

I'm a captain lost at sea, in the deep heading straight to the bottom
Are you alone when you think of me?
Just take a deep breath and watch me go down
I'm a pilot falling free, about to crash land straight to the bottom
Are you alone when you think of me?
Just take a deep breath and watch me go down
I wanna be like you
And i wanna see like you
And i'm a bird with broken wings, descending so fast straight to the bottom
Are you alone when you think of me
Just take a deep breath and watch me go down
And i'm a man with many dreams, i've seen them all fall straight to the bottom
I'm all alone inside you see

Just take a deep breath, and watch me go down
And i wanna be like you
And i wanna see like you
I wanna be and i wanna see
I wanna be like you
My paper wings never learn to fly
And i'm a fake cause i never tried
I fell asleep in a life of lies
With my conscience kicking in i could never get through to you
And i will swim through this mess i've made
Where i can pray for a tidal wave
So you can watch my body fade
Into the horizon the oceans have me now
And can you feel me dreaming of you
And can you feel me dreaming of you
