

# Love Me Less

## One Day

[Jimmy Nice]

I cheat on every woman I ever been with  
Do you love me less?  
I know this truth is stranger than fiction, girl  
I must confess  
I loved every women I ever been with with  
But you know the rest  
Wanna get caught up in my mess  
Well, be my guest, be my guest, girl

[Jimmy Nice]

For me to explain my first line to ya  
It's best to take you back to the scene of my first time  
I was on (??) street with a freak named Maddy  
And a three litre cask of wine, love was in bloom  
In her friends, sister's room  
Was better than a girl who says yes too soon  
To our room, so I guess there lies the root of my problem  
I flow like the weather whenever I commit  
Bit I ain't cheating on every girl I've ever been with  
No I got your attention, but only this  
Put your man up in a cab and send me a kiss  
But you can't live by so where to you live?  
Go to yours, go to mine, wherever you pick  
(??) we never miss  
Told her my room's a mess so the bed it is

[Jimmy Nice]

I cheat on every woman I ever been with  
Do you love me less?  
I know this truth is stranger than fiction, girl  
I must confess  
I loved every women I ever been with with  
But you know the rest  
Wanna get caught up in my mess  
Well, be my guest, be my guest, girl

[Nick Lupi]

She want to mess 'round, but she don't want to get let down

Stretched out on my bed, be my guest now  
Tell me, would you love me less now  
That your well aware how I get down?  
Whether pulling at your chair when we step out  
Or pulling on your hair like you're stressed out  
She whipping everywhere so where now?  
From here out, this we should be clear about, here me out

[Kai]

I used to keep an eye out like ratties in the alley  
But baby I'm pointing like the valley, I feel like love  
I'm about to give her they key a valet  
And cruise around like a Mustang, Sally  
But, before we go too far  
Girl you got to know I'm no shooting star  
I scout for tears running down my path  
I try to treat you right but you know what it's like

[Jimmy Nice]

I cheat on every woman I ever been with  
Do you love me less?  
I know this truth is stranger than fiction, girl  
I must confess  
I loved every women I ever been with with  
But you know the rest  
Wanna get caught up in my mess  
Well, be my guest, be my guest, girl

[Solo]

Now I was at the merch desk, trynna mind my own  
Left my girl for another long night alone  
Hold up in a hotel, miles from home  
My t-shirt so filled with sweat  
I just rocked a set, if you'd like to know  
Right now I'm feeling flatter than the battery inside my phone  
When Ms Fly walks by with the flattery  
Trynna challenge me to go head-to-head, toe-to-toe  
Making eyes, touching hands and flirting  
Baby girl, trynna put some work in  
But I know one thing for certain  
I want you, but I don't want to be that person  
So, listen, fixing, I'm fixing to making a mistake  
If I don't vacate out of this place  
Stranger than fiction, now she waits in the distance

It can all change in an instant

[Solo]

There's something that you do, to me  
Got me howling at the moon, how you do  
So come on in, before you make yourself at home  
You should know a couple of thing, where to begin

[Jimmy Nice]

I cheat on every woman I ever been with  
Do you love me less?  
I know this truth is stranger than fiction, girl  
I must confess  
I loved every women I ever been with with  
But you know the rest  
Wanna get caught up in my mess  
Well, be my guest, be my guest, girl
