Light Discovering Darkness

Soilwork

Light, time is on my side
Well, you better believe it's true
'Cause you can't make me run
They call it life
Covered till it makes you blind
Do you wanna make the trip outside?
Then you better start running
I won't let it distract me
Out, I can't believe it's true
You better just shut it out
They won't let me pull it through
Shut it out
Can I push my luck on you?
Don't shut me out, again
'Cause you better shut it out
Define
The shelter as the time goes by
It will change you till you can't decide
Now, you're left without nothing
I won't let you distract me
Out, I can't believe it's true
You better just shut it out

They won't let me pull it through
Shut it out
Can I push my luck on you?
Don't shut me out, again
'Cause you better shut it
I feel it too, I feel it
I feel it too, no, I can't see anything true
Anything true
I won't let it distract me
Out, I can't believe it's true
You better just shut it out
They won't let me pull it through
Shut it out
Can I push my luck on you?
Don't shut me out
I can't believe it's true

They won't let me pull it through
Don't shut me out
Out, don't shut me out, again
'Cause you better shut it
