

Night Life

David Lee Roth

When that evenin', sun go down
You won't find me hangin' 'round
'Cause I know the night life
Ain't no good life yeah, but it's my life, listen All the people, just like you and me, baby
They all just dreamin' 'bout some old used to be
They know the night life
Ain't no good life but it's my life Wait a minute
What's that I think I hear, I say Baby, listen to the blues
Hear what they say
I say, listen to the blues, baby
Hear my guitar play Don't tell me life, life is just an empty thing
Nothing but people a whole boulevard of broken dreams
I know the night life
Ain't no good life, yeah but it's my life [Incomprehensible] I know the night life
Yes ain't no good life but it's my life, baby
Yes it's my life, yeah
