

Time

Chris Cornell

We don't talk like we used to
The perfect present is no longer the future
And I can't find it, trust me I looked around
Seems like all the sand is at the bottom now
We gotta know, know when to fight, know when to hold
And when to let it go
I hope we survive 'cause it's passing by
I won't be surprised if it all up and blows
Time, time, time
(If it all up and blows)
Time, time, time, time
(I wish we could rewind)
Time, time, time
(I wish we could rewind)
Time, time, time
(I wish we could rewind)
We are the shore, the wave is rising
We are the dust made out of diamonds
When metal rusts, we are all drowning
Island of Mann, we are surrounded
We gotta know, know when to fight, know when to hold
And when to let it go
I hope we survive 'cause it's passing by
I won't be surprised if it all up and blows
Time time time
(If it all up and blows)
Time time time time
(I wish we could rewind)
Time
(Time, time, time, time)
Time time time time time time
(I wish we could rewind)
Make a little love, make a little war
Tell me how it feels dreaming without a future
Have a little laugh, have a little cry
Each moment gets us closer to saying goodbye
Make a little love, make a little war
Tell me how it feels dreaming without a future
Have a little laugh, have a little cry
Each moment gets us closer to saying goodbye
Big hand keeps getting closer to the little hand
All good things come to an end and turn around again
The big hand keeps getting closer to the little hand
All good things come to an end
We gotta know, know when to fight, know when to hold
And when to let it go
I hope we survive 'cause it's passing by
I won't be surprised if it all up and blows
Time, time, time, time
(If it all up and blows)
Time, time, time

(I wish we could rewind)Time, time, time, time
(If it all up and blows)
time, time, time, time
(I wish we could rewind)Time time time
(If it all up and blows)
Time time time
(I wish we could rewind)Time
(Time, time, time, time)
Time, time, time, time, time, time
(I wish we could rewind)I wish we could rewindSmoking on a cigarette, my six pack's right beside me
Smoking on a cigarette, my six pack's right beside me
Smoking on a cigarette, my six pack's right beside me
Smoking on a cigarette, my six pack's right beside meBeside me, beside me, beside me
Beside me, beside me, beside me
Beside me, beside me, beside me
Beside me, beside me, beside me
Beside me, beside me
