

# Out With Her

## The Blow Monkeys

They say it's meant to change your life  
When you fall in love  
And if this is what it's like  
I couldn't ask for more  
You put out the fire  
And I'm not too vain to make a change  
Even though it's not my style  
I'll try to say goodbye  
And I never ever wanted to be part of this

When I'm out with her  
You know that I don't care  
You know that I don't care  
When I'm out with her  
You know that I don't care  
You know that I don't care

If you chose another  
Well I won't suffer  
It's true, you never needed  
Anybody, anytime  
So the guilty is mine  
You make everything  
and I know I shouldn't care at all  
I know I shouldn't care but there  
He's already there  
And I never ever wanted to be part of this

When I'm out with her  
You know that i don't care  
You know that I don't care  
When I'm out with her  
You know that i don't care  
You know that I don't care

Must have been something in the way  
You smiled at me  
When you put me at ease  
I don't ask you for please  
Do you feel?

Do you feel?  
Do you feel the way I do?

Feel It - You could say I love you  
Feel it - You Could I Need You  
But you forced me into a corner  
I can't take no more!

When I'm out with her  
You know that i don't care  
You know that I don't care  
When I'm out with her  
you know that i don't care  
- feeling your touch all night  
You know that I don't care  
- feeling your touch all night
