Too Late

JFA

You can't understand what we feel
you can't understand what is real
tell us about our nazi games
all you want is stupid famewe want to survive not destroy
too late too late you coagulate
times running out on your pitiful state
your time ran out in 78
you say what we do is stupid
you say it's not the right way
then you say destroy authority
i'm sure no way
Frank Sue and Henry too
don't act stupid I'm talking to you
you think you're the new way
but you're really yesterday
