

I Am a Nightmare

Brand New

[Verse 1]

Turn tin to gold

I want pure energy

Throw everything I own into the fire

I want to find a way

I want to throw up snakes

Do I have to die to see the other side?[Chorus]

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out

I am a nightmare and you are a miracle

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out

I am a nightmare and you are a miracle[Verse 2]

So come shake your Zen out

And give me pure energy

My heart is glowing flourescent, I want you to possess it

I'm not a prophecy come true

I've just been goddamn mean to you

So what is this thing laced with

Please don't replace me

I surrender, embrace me

Whatever I'm faced with[Chorus]

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out

I am a nightmare and you are a miracle

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out

I am a nightmare and you are a miracle[Bridge]

Blessed be the lost at sea

The rest in peace was what they conceive in

No, I am messed up, no distress

I fall asleep holding your hand

Among alien dunes, you are a pale vision of blue

And I'm a second sail, a saved thief

So, go save someone else[Chorus]

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out

I am a nightmare and you are a miracle

I am a nightmare and you are a miracle

Coming out of the ground, it's kind of freaking me out
I am a nightmare and you are a miracle
