# Better Days

## Ian Gillan

And we don't have much
But these four walls
And it's just enough
To keep us warm
On those cold winter nightsLet's think about better days
Not what we did
But what we'll doAnd we work so hard
Each and every day
We're growing old
We get afraid
You can count on meLet's think about better days
Not what we did
But what we'll doAnd if I had
Only one more day
I'd spend it right here with youUnder a million stars
Our two hearts pound
And that's the only thing
That matters nowWe know a few things
About life and death
Pretty soon
We'll learn the rest
I'm in no rush at allLet's think about better days
Not what we did
But what we'll doAnd if I had
Only one more day
I'd spend it right here with you
