

Better Days

Ian Gillan

And we don't have much
But these four walls
And it's just enough
To keep us warm
On those cold winter nights
Let's think about better days
Not what we did
But what we'll do
And we work so hard
Each and every day
We're growing old
We get afraid
You can count on me
Let's think about better days
Not what we did
But what we'll do
And if I had
Only one more day
I'd spend it right here with you
Under a million stars
Our two hearts pound
And that's the only thing
That matters now
We know a few things
About life and death
Pretty soon
We'll learn the rest
I'm in no rush at all
Let's think about better days
Not what we did
But what we'll do
And if I had
Only one more day
I'd spend it right here with you
