

Twist

Oh Land

Set me free from the prison of the past
Dont trap in your story
You will fall from the shaggy you stand
On guard and protect your dynasty
To fend the fall intruders
Its the sign of the fear that you bring
You twist dismiss my memory
Now lets twist things into a harmony
You twist dismiss my memory
So lets twist things into a harmony
Assembly line is diversity of threat
Breaking all the borders
I dont think this is as far as we can get
Control a chance to prove your power
Hope seems so distant
When you think were all cowards
You twist dismiss my memory
Now lets twist things into a harmony
You twist dismiss my memory
So lets twist things into a harmony
You twist dismiss my memory
Now lets twist things into a harmony
You twist dismiss my memory
So lets twist things into a harmony
Get me in assembly line, control, control
Listen the listen me in power, tick, tick
Breaking were all, breaking were all
Get, get, control
You twist dismiss my memory
Now lets twist things into a harmony
You twist dismiss my memory
So lets twist things into a harmony.
