He Told Me

Lumidee

When I met u at first I was frontin'
Time passed damn I'm in somethin'
We got caught up and I fell real hard
To tell you the truth I aint never go this far
Now we chillin' and we laughin
We playin house in the crib. Who'd imagine?
A lot of people wanna see us apart and at the time I ain't never take that shit to heart
Cuz we was too tough they ain't budgin us
They can throw it your way you aint ___ up
But as the years go on
U doin' shit to make me wonder
Are we still that strong?
Chorus:
Well he told me
He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
Well he told me
He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
Nowadays I'm always flippin' bout nothin
It's my fault it's lookin' like somethin'
Your new habit's turnin off ya phone
and your bull ___ stories when you come back home
Is it all in my mind?
Am I dumb? Love is blind
Cuz I keep dealin' wit the same ___ all the time
As soon as you get caught in the mix, it ain't you it's ya man and you ain't doin' shit

It's just the little things you do that make it seem to me like you aint true
But I'm tired of stressin' ya
But if it ain't true I just want the best from ya
Chorus:
Well he told me
He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
Well he told me

He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
If I'm what you want my love
then baby be true cuz I'm true to you
and we'll make it through
Soldiers play your part for me
Chorus:
Well he told me
He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
Well he told me
He's never ever gonna leave me lonely
and I just can't figure that one
No I just cant figure that one
