

Hands Of Time

[Ron Sexsmith](#)

Like a fool Im reaching out, Lord
To the hands of time
If he knew how You were drowning
Hed never toss You a lineIf all we have is here and now
Honey, I wont change a thing, all I know is how I feel
When you move your snow white hand in mine
Ill never hold the hands of timeFrom the moment we are born
Were in the hands of time
As drunk on life as death is sober
When we say goodbyeThough it hurts to lose a friend
May it help remembering
For every door that closes in
One will open to the other side
Opened by the hands of timeHeaven knows there are days when it flies on by
Heaven knows there are days when it drags
Though it may seem to be on your side
Turn around, its left you high and dryAnd that is why
Its a fool who reaches out
To the hands of timeIf all we have is here and now
Honey, I wont change a thing, all I know is how I feel
When you move your snow white hand in mine
Ill never hold the hands of timeFeel it hands upon the strings
As the music starts to ring in my soul, in my dreams
For to help these melodies and rhymes
Become this song, hands of timeHands of time
