

Bring Back the Sun

Debelah Morgan

How am I supposed to live alone
I need I need you love to carry on
How will I make it through the night
Without your love will the morning ever come
Bring back the sun
Bring back the morning to my life
Bring back your love
So, I can make it through the night
Without your love will the morning ever come
I need to feel it so I can make it
Baby bring back your love
Why is it so cold here on the ground?
And why why is the darkness all around?
Please bring back the light into my life
I'm so afraid I won't make it through the night
Bring back the sun
Bring back the morning to my life
Bring back your love
So, I can make it through the night
Without your love will the morning ever come
I need to feel it so I can make it
Baby bring back your love
If our love was a dream
Then I wanna sleep forever
I wish I could dream myself
Back into your arms
Bring back your love
Bring back the sun
I need your love to be strong
Bring back the sun
Bring back the morning to my life
Bring back your love
So, I can make it through the night
Without your love will the morning ever come
I need to feel it so I can make it
Baby bring back your love
Bring back the sun
Bring back the morning to my life
Bring back your love
So, I can make it through the night
Without your love will the morning ever come
