

# Neighbours (Limbo Cottage)

## Quantum Jump

(one day mothers fences were blown down in the wind)

Oh yes we've lived on the fourth  
Since you've lived on the fifth  
Must be about nine years by now  
We've been passing on the stairs  
Yes, well we've noticed your friends  
We've heard you argue some nights  
Smelt your meals through the floor  
Never known you by your first names

Just a mister and missis  
No children to play  
Make us bang on the ceiling  
What a surprise when you called to say  
"Oh well we're having a party  
- Come on over tonight"...

We're neighbours (pass your key)  
Living over you, living over me -

Well we dressed up so fine  
Rang the doorbell at nine  
Your eyes were on fire  
When you opened the door  
Your husband was... hazy  
You offered us grass

Well of course we refused  
When I went to the loo  
Tripped on the carpet

And was joined by a few  
Limbo ladies like touching  
So they felt me up and down

Laid me out on the floor  
Till I cried out for less  
I came back to the sofa

And there was no one around  
Cos you'd stolen my wife  
To play games

With two men and a snake  
Hey mam, what's happening to me  
mam etc.

I was hungry and hot

Couldn't see through the smoke  
You were wonderful neighbours  
And we were your joke  
We're neighbours (pass your key)  
Living over you, living over me  
Crossed the landing alone  
Made me some toast  
Think I'll buy  
A country cottage with a moat  
...Well I wasn't rehearsed  
Think I'll buy... Limbo ladies like touching  
Think I'll buy a country cottage with a moat  
Limbo ladies like touching, settle down -  
(Limbo cottage with ladies in the moat)
