

How I Miss Your Smile

[Dokken](#)

Thinkin' 'bout the days spent with you
All The Things that we used to do
Memories of simple things revolve around you
Visions in my mind keep coming through
I Wasn't you and i've known for awhile
How I Miss Your Smile
Funny how this all came to be
Miscommunication it seems
Looking back I realize the truth
I wish that i had listened to you
It's the simple things that change in our lives
Maybe someday I'll get it right
How I miss your smile
This foolish heart is broken there's no cure
And this loneliness is all that I have
WE can't take it back the words that we said
Without regrets
Baby I admit that I lied
No Excuse for makin' you cry
I keep starin' at your picture every day
Please forgive me is all I have to say
How I miss your smile
