How I Miss Your Smile

Dokken

Thinkin' 'bout the days spent with you All The Things that we used to do Memories of simple things revolve around you Visions in my mind keep coming through I Wasn't you and i've known for awhileHow I Miss Your SmileFunny how this all came to be Miscommunication it seems Looking back I realize the truth I wish that i had listened to youIt' the simple things that change in our lives Maybe someday I'll get it rightHow I miss your smileThis foolish heart is broken there's no cure And this lonliness is all that I have WE san't take it back the words that we said Without regretsBaby I admit that I lied No Excuse for makin' you cry I keep starin' at your picture every day Please forgive me is all I have to say How I miss your smile
