

Out Of The Blue

Ryan Leslie

I light a candle for you tonight, yea

Said I reminisce on you, babe

Reminisce on you yea

ListenShould've spend more time

Been a part of your life

And made you more part of mine

Guess it's too late now

I should've been a better friend

I done my best to understand you

Still it's hard to think that we're done

We through[Chorus]

Now what would you do

Tell me, if I left you out of the blue

Would you fight back tears while your heart gets torn to pieces

Cause that what I did when you

Left me out of the blue

Love can feel so good and then suddenly it's over, yeaI should've been more true, takin' better care of you,

Like I was supposed to, guess it's too late now,

I should've told you how I felt, steady thinkin' of myself,

Still I can't believe you went away so soon[Chorus][Bridge]

Now when I ask myself

It's hard to see

How you can be anywhere but here with me

You said that you needed space and time

So you would be able to make up your mind

You said if I set you free

One day you'll be ready to come back to me

Did you really mean it? I hope you did

Hope you meant it babe[Chorus: x2]That's right I light a candle for you tonight, babe

Yes I will, yes I will

Cause I'm missing you

So I light a candle for you baby

For us, for me and you
