

Blow

Theory of a Deadman

Uh huh

Sometimes it makes me (uh huh) wanna blow my fucking head off
Sometimes it makes me (uh huh) think the world has gone officially insane

Where everything's a scandal, the news too hard to handle
World is so unbearable like wearing socks with sandals
I'm a lover, not a fighter, respectable to women
Ain't Chris Brown, I don't feel the need to hit em
Sad to see a twelve year old, acting like a little hoe
Taking naked pictures while she's living in her parent's home
Post em up on Twitter, make you reconsider
Every time you go online to find a babysitter

Sometimes it makes me (uh huh) wanna blow my fucking head off
Sometimes it makes me (uh huh) want to go a little mental
Celebrate the idiot, pretend that we're so into it
Dumb down our intelligence, just to make us relevant
Sometimes it makes me (uh huh) think the world has gone officially insane

The loveable NRA, they're totally to blame
The only people to actually have to 'give your kid a gun' day
Government's a joke, a fucking sinking boat
But hey don't complain, you're the one who cast the vote
Kanye West says rock is dead, guess he's off his meds again
Lost his mind, about to time, he got with that Kardashian
What happened to De Niro? Reality stars are heroes
Here's to proof that our IQs have finally dropped to zero

Sometimes it makes me (uh huh) wanna blow my fucking head off
Sometimes it makes me (uh huh) want to go a little mental
Celebrate the Idiot, pretend that we're so Into it
Dumb down our intelligence, just to make us relevant
Sometimes it makes me (uh huh) think the world has gone officially insane
Think the world has gone officially insane (x2)

Stop, and take the time to realize it's over
If you live to have some kids they'll hate you when they're older
They'll dump you in a home, to die there all alone
Finally you'll rest in peace, not like they'll ever know
But don't to listen to a word I say, cuz it don't really mean a thing

World is full of hypocrites and I'm the fucking king
It's not like I mean it, we're all in agreement
As soon as you hear this freaking song I'm sure you'll just delete it

Sometimes it makes me (uh huh) wanna blow my fucking head off
Sometimes it makes me (uh huh) want to go a little mental
Celebrate the idiot, pretend that we're so into it
Dumb down our intelligence, just to make us relevant
Sometimes it makes me (uh huh)
Think the world has gone officially insane (bout to blow my fucking head off) (x4)
Think the world has gone officially insane
