

Introduction

Jimi Hendrix

How ya doing?

You feeling alright?

Yeah, alright, there you go We have Billy Cox on bass

Mitch Mitchell on drums

And yours truly on the public saxophone, thank you Give us about a minute to get tuned up and
Get rid of these joints and everything, alright We're gonna start up on a little jam, you know just

Everything is like relaxed

Forget about yesterday or tomorrow whatever you say

This is our own little world here tonight

We'll just go in this groove a little bit

We'll just do a little instrument tune

And check our tuning, alright

So lay back and
