Hate Yourself With Style

Clawfinger

Yes sir, no sir anything goes
Change your looks and change your clothes
Get in where you fit in play by the rules
Masturbating with the foolsPlay the game, choose a side
Learn to lose, fuck your prideTaking no chances making safe bets
Acting like a teachers pet
Making your way but still not climbing
You're too worried about your timingShake those hands, fake that smile
Kiss that ass & sit back & hate yourself with stylePhotostat copycat imitator
Faker traitor moneymaker
You're not a giver you're just a taker
Good for nothing impersonatorChorusYes sir, no sir anything goes
Change your looks and change your clothes
Get in where you fit in play by the rules
Masturbating with the foolsPlay the game, choose a side
Learn to lose, sit back & hate yourself with style
