

# Little League Hearts, Major League Break

## Out With the Old

I fell in love at the first sight  
But you looked away  
It should be obvious I'm never going to feel the same  
You've always been just another open book to me  
So stop changing the cover because it was never seen I hope he breaks your heart  
In the end  
You'll never make it far  
Face down, on the hood of his car Sit back and watch the stars fall for us  
You could have been my everything but we turned to dust  
I know that I'll have nothing to do with you  
And to think that I might not be alone for once  
Was really a nice thought When you're alone tonight  
Think of me and try not to cry  
Watching you make a big mistake  
Is a past time, That I'll get used too I'll never look at this park quite the same  
Or this fucked up traditional american game  
I always hoped that my kids would never play  
Well since I met you my whole life has changed Sit back and watch the stars fall for us  
You could have been my everything but we turned to dust  
I know that I'll have nothing to do with you  
And to think that I might not be alone for once  
Was really a nice thought They say that the good die young  
If we live together doesn't that make you just as fucked  
They say that the good die young  
If we live together doesn't that make you just as fucked I want to die with someone just as fucked as I am  
But you lived forever  
I want to die with someone just as fucked as I am  
But you lived forever
