

My Love

Zucchero

Stray cat in a mad dog city
9 ways to sorrow
A moment's all it takes to say goodbye
I'm waiting Wild cat in a sad dog story
9 roads to follow
A moment's all it takes to say goodbye For all the love that's torn us, for us
For all the pain so sweet
Say you won't, say you won't leave My love, I'm dreaming of one girl
Someone to make my world
Someone just like you My love, the girl that I'm dreamin'
To give me that feeling
Someone just like you, yeah Stray cat in a mad dog city
9 lives to borrow
A moment's all it takes to say goodbye
I'm waiting Lost cat in a dead end story
9 lines that echo
A moment's all it takes to say goodbye For all the love before us, for us
For all the pain so sweet
Say you won't, say you won't leave My love, I'm dreaming of one girl
Someone to make my world
Someone just like you My love, the girl that I'm dreamin'
To give me that feeling
Someone just like you, yeah (oh no, oh no) Siamo caduti in volo, mio sole
Siamo caduti in volo
Siamo caduti in volo, mio cielo
Siamo caduti in volo (baby don't cry,
baby don't cry,
baby don't cry,
baby don't cry) My love, I'm dreaming of one girl
Someone to make my world
Someone just like you My love, the girl that I'm dreamin'
To give me that feeling
Someone just like you, yeah My love, I'm dreaming of one girl
Someone to make my world
Someone just like you
