

Walking On Water

Mike & The Mechanics

I don't know if I can find a way
To help myself
I'm going to start again
Wanna take the the dreams we had before
And try it again
Wasting life on a fantasy
I don't know why I ran away
Oh what I'm trying to say...
I wanna be the best that I can be
Can you find the faith to believe me
Oh like walking on water
Heaven knows that I'm willing to try
Over and over and over and over
I didn't understand
That I can't stand alone
I need you back again
Time has passed
Now I just can't stay and hideaway
Oh what I'm trying to say
I wanna be the best that I can be
Can you find the faith to believe me
Oh like walking on water
Heaven knows that I'm willing to try
Over and over and over
Wanna take you up to the touch the sky
Be the water when the well runs dry
Wanna make a world and take you there
Over and over
If you can find a way
Let me take your hand
I won't let go again
Time has passed
Now I just can't stay and hideaway
That's what I'm trying to say
I wanna be the best that I can be
Can you find the faith to believe me
Oh like walking on water
Heaven knows that I'm willing to try

Over and over and over
